

Uniform Building By-Laws 1984

UNIFORM BUILDING BY-LAWS

1984

ARRANGEMENT OF BY-LAWS

PART I PRELIMINARY

By-law

- [1. Citation](#)
- [2. Interpretation](#)

PART II SUBMISSION OF PLANS FOR APPROVAL

- [3. Submission of plans for approval](#)
- [4. Return of plan](#)
- [5. Supervision of work](#)
- [6. Plans to be signed](#)
- [7. Withdrawal or change of qualified person](#)
- [8. Plans to be deposited in triplicate](#)
- [9. Scale of plans](#)
- [10. Plans required](#)
- [11. Exemption from by-law 10](#)
- [12. Sketch plans for approval in principle](#)
- [13. Special permission to commence building operations](#)
- [14. Plans of alterations](#)
- [15. Specification](#)
- [16. Details and calculations of structural plans](#)
- [17. Power of local authority to reject structural plans and calculations](#)
- [18. Permits](#)
- [19. Temporary permits](#)
- [20. Advertisement Hoarding](#)
- [21. Materials not to be deposited in a street without permission](#)
- [22. Notice of commencement or resumption of building operations](#)
- [23. Notice of completion of setting out](#)
- [24. Notice of completion of excavation for foundation](#)
- [25. Certificate of fitness for occupation](#)
- [26. Temporary certificate of fitness for occupation](#)
- [27. Partial certificate of fitness for occupation](#)
- [28. Offence under the Act](#)
- [29. Fees for consideration of plans and for permits](#)

PART III

SPACE. LIGHT AND VENTILATION

- [30. Open spaces to be provided](#)
- [31. Open spaces not to be altered or roofed](#)
- [32. Space about buildings abutting a street and a back lane](#)
- [33. Space about buildings on lots abutting a street and having no back lane](#)
- [34. Space about detached buildings](#)
- [35. Access from a street](#)
- [36. Splayed corners](#)
- [37. Projections over the street and over the building line](#)
- [38. Width of footway](#)
- [39. Natural lighting and ventilation](#)
- [40. Air-wells](#)
- [41. Mechanical ventilation and air-conditioning](#)
- [42. Minimum area of rooms in residential buildings](#)
- [43. Minimum dimensions of latrines, water-closets and bathrooms](#)
- [44. Height of rooms in residential buildings, shophouses, schools, etc.](#)
- [45. Places of public resorts](#)
- [46. Heights of rooms in buildings](#)
- [47. Project long over verandah-way](#)

PART IV

TEMPORARY WORKS IN CONNECTION WITH BUILDING OPERATIONS

- [48. Commencement of building operation](#)
- [49. Responsibility of persons granted temporary permits](#)
- [50. Cancellation of temporary permits](#)
- [51. Vehicular access to site](#)
- [52. Rising mains to be installed progressively](#)

PART V

STRUCTURAL REQUIREMENTS

- [53. Building materials](#)
- [54. General requirements of loading](#)
- [55. Dead and imposed loads](#)
- [56. Dead loads calculated from weights of materials used](#)
- [57. Weight of partitions](#)
- [58. Contents of tanks and other receptacles](#)
- [59. Imposed floor loads](#)
- [60. Mechanical stacking](#)
- [61. Imposed loads on ceilings, skylights and similar structures](#)
- [62. Reduction in total imposed floor loads](#)
- [63. Imposed roof loads](#)
- [64. Curved roofs](#)
- [65. Roof coverings](#)
- [66. Internal suspended loads on primary structural members](#)
- [67. Amount of suspended load](#)
- [68. Dynamic loading](#)
- [69. Crane gantry girders](#)

- [70. Parapets and balustrades](#)
- [71. Vehicle barriers for car parks](#)
- [72. Basement walls and floors](#)
- [73. Foundations](#)
- [74. Foundations of buildings not exceeding four storeys](#)
- [75. Reinforced concrete foundations](#)
- [76. Strip foundations](#)
- [77. Brick footings](#)
- [78. Foundations below invert of drains](#)
- [79. Foundations under external and party walls](#)
- [80. Structure above foundations](#)

PART VI **CONSTRUCTIONAL REQUIREMENTS**

- [81. Building site](#)
- [82. Drainage of subsoil](#)
- [83. Protection against soil erosion, etc.](#)
- [84. Prevention of dampness](#)
- [85. Nominal thickness of walls](#)
- [86. Party walls](#)
- [87. Openings in party walls](#)
- [88. Recesses](#)
- [89. Chases](#)
- [90. Underpinning](#)
- [91. Coping, etc. to be impervious](#)
- [92. Projections in brickwork](#)
- [93. Measurement of the length of a wall](#)
- [94. Use of 100 millimetre brickwork and concrete blocks in loadbearing walls](#)
- [95. External panel walls](#)
- [96. Non load-bearing partitions](#)
- [97. Timbers built into party walls](#)
- [98. Fences and boundary walls](#)
- [99. Cooking facilities in residential buildings](#)
- [100. Cooking facilities in quarters](#)
- [101. Boilers, fireplaces, forges and incinerators in factories](#)
- [102. Combustible materials adjoining smoke flues](#)
- [103. Timber floors](#)
- [104. Bearing of joists](#)
- [105. Space below floors to be ventilated](#)
- [106. Dimensions of staircases](#)
- [107. Handrails](#)
- [108. Maximum flights](#)
- [109. Winders](#)
- [110. No obstructions in staircases](#)
- [111. Lighting and ventilation of staircases](#)
- [112. Enclosure of staircases in a shop](#)
- [113. Use of timber staircases](#)
- [114. Timber roofs](#)
- [115. Roofs coverings and drainage](#)

- [116. Accessible flat roofs, balconies, etc.](#)
- [117. Access to roof space](#)
- [118. Refuse chutes and alternate means for disposal of refuse](#)
- [119. Change of use of building](#)
- [120. Design and construction of refuse chutes](#)
- [121. Requirements for refuse receptacle chambers](#)
- [122. Access to refuse receptacle chambers](#)
- [123. Pipes and service ducts](#)
- [124. Lifts](#)
- [125. Swimming pools](#)
- [126. Steps and footway](#)
- [127. Openings into swimming pool](#)
- [128. Depth of water](#)
- [129. Location of diving boards](#)
- [130. Changing rooms](#)
- [131. Foot-bath and shower](#)
- [132. Private, residential swimming pools](#)

PART VII **FIRE REQUIREMENTS**

- [133. Interpretation](#)
- [134. Designation of purpose groups](#)
- [135. Rules of measurement](#)
- [136. Provision of compartment walls and compartment floors](#)
- [137. Floor in building exceeding 30 metres in height to be constructed as compartment floor](#)
- [138. Other walls and floors to be constructed as compartment walls or compartment floors](#)
- [139. Separation of fire risk areas](#)
- [140. Fire appliance access](#)
- [141. Separating walls](#)
- [142. External walls](#)
- [143. Beam or column](#)
- [144. Cladding on external wall](#)
- [145. Reference to Sixth Schedule](#)
- [146. Relevant boundary](#)
- [147. Construction of separating walls](#)
- [148. Special requirements as to compartment walls and compartment floors](#)
- [149. Horizontal and vertical barriers at the external walls](#)
- [150. Protected shafts](#)
- [151. Ventilation to lift shafts](#)
- [152. Openings in lift shafts](#)
- [153. Smoke detectors for lift lobbies](#)
- [154. Emergency mode of operation in the event of mains power failure](#)
- [155. Fire mode of operation](#)
- [156. Protected shafts as ventilating duct](#)
- [157. Protected shafts consisting of staircase](#)
- [158. Stages in places of assembly](#)
- [159. Open stages](#)
- [160. Fire precaution in air-conditioning systems](#)
- [161. Fire-stopping](#)

[162. Fire doors in compartment walls and separating walls](#)
[163. Half hour and one hour doors](#)
[164. Door closers for fire doors](#)
[165. Measurement of travel distance to exits](#)
[166. Exits to be accessible at all times](#)
[167. Storey exits](#)
[168. Staircases](#)
[169. Exit route](#)
[170. Egress through unenclosed openings](#)
[171. Horizontal exits](#)
[172. Emergency exit signs](#)
[173. Exit doors](#)
[174. Arrangement of storey exits](#)
[175. Calculation of occupant load](#)
[176. Computing storey exit widths](#)
[177. Computing number of staircases and staircase widths](#)
[178. Exits for institutional and other places of assembly](#)
[179. Classification of places of assembly](#)
[180. Spaced standards for calculating occupancy loads](#)
[181. Width of means of egress](#)
[182. Rate of discharge](#)
[183. Exit details for places of assembly](#)
[184. Seating](#)
[185. Gangways in places of assembly](#)
[186. Exit doors in places of assembly](#)
[187. Notice affixed to door of gate](#)
[188. Travel distance in places of assembly](#)
[189. Enclosing means of escape in certain buildings](#)
[190. External staircase](#)
[191. Openings in adjacent walls not permitted](#)
[192. Moving walks](#)
[193. Power operated door as means of egress](#)
[194. Building with single staircase](#)
[195. Staircases to reach roof level](#)
[196. Smoke lobbies](#)
[197. Protected lobbies](#)
[198. Ventilation of staircase enclosures](#)
[199. Ventilation of staircase enclosures in buildings not exceeding 18 metres](#)
[200. Ventilation of staircase enclosures in buildings exceeding 18 metres](#)
[201. Staircase enclosures below ground level](#)
[202. Pressurized system for staircase](#)
[203. Restriction of spread of flame](#)
[204. Classification of restriction of flame over surfaces of walls and ceilings](#)
[205. Classification of interior finish materials](#)
[206. Classification of surface of wall or ceiling](#)
[207. Exceptions relating to ceilings](#)
[208. Reference to roofs](#)
[209. Reference to buildings](#)
[210. Construction of roofs](#)
[211. Roofing materials](#)
[212. Category designation for fire penetration and spread of flame on roof surface](#)

- [213. Fire resistance](#)
- [214. Additional requirements](#)
- [215. Height of buildings](#)
- [216. Single storey buildings](#)
- [217. Fire resistance of structural member](#)
- [218. Compartment wall separating flats and maisonnette](#)
- [219. Application of these By-laws to floors](#)
- [220. Floor area and capacity of buildings and compartments](#)
- [221. Test of fire resistance](#)
- [222. Fire resistance for walls](#)
- [223. Fire resistance for floors above ground floor](#)
- [224. Fire resistance for any element of structure](#)

PART VIII

FIRE ALARMS, FIRE DETECTION, FIRE EXTINGUISHMENT AND FIRE FIGHTING ACCESS

- [225. Detecting and extinguishing fire](#)
- [226. Automatic system for hazardous occupancy](#)
- [227. Portable extinguishes](#)
- [228. Sprinkler valves](#)
- [229. Means of access and fire fighting in buildings over 18.3 metres high](#)
- [230. Installation and testing of dry rising system](#)
- [231. Installation and testing of wet rising system](#)
- [232. Wet or dry rising system for buildings under construction](#)
- [233. Foam inlets](#)
- [234. Underground structures and windowless buildings to have foam inlets](#)
- [235. Fixed installations](#)
- [236. Special hazards](#)
- [237. Fire alarms](#)
- [238. Command and control centre](#)
- [239. Voice communication system](#)
- [240. Electrical isolating switch](#)
- [241. Special requirements for fire alarm systems](#)
- [242. Fire fighting access lobbies](#)
- [243. Fire lifts](#)
- [244. Standards required](#)
- [245. Approval of D.G.F.S.](#)
- [246. Certification on completion](#)
- [247. Water storage](#)
- [248. Marking on wet riser, etc.](#)
- [249. Smoke and heat venting](#)
- [250. Natural draught smoke vent](#)
- [251. Smoke vents to be adequate to prevent dangerous accumulation of smoke](#)
- [252. Smoke vents to be openable by Fire Authority](#)
- [253. Emergency power system](#)

PART IX **MISCELLANEOUS**

- [254. Buildings to which Parts VII and VIII apply](#)

[255. Power of local authority to extend period, etc.](#)

[256. Buildings exempted](#)

[257. Malaysian Standard Specification and Code of Practice to prevail over British Standard Specification and Code of Practice](#)

[258. Failure to Buildings](#)

FIRST SCHEDULE.

SECOND SCHEDULE.

THIRD SCHEDULE.

FOURTH SCHEDULE.

FIFTH SCHEDULE.

SIXTH SCHEDULE.

SEVENTH SCHEDULE.

EIGHT SCHEDULE.

NINTH SCHEDULE.

TENTH SCHEDULE.
